(Subject to annual increase)

# Farmers Waste Disposal Rate

**\$55.00**

per tonne including GST

(Subject to annual increase)

Please check with **SML Market Officers**  
or **Environment Manager** for fruit and  
vegetable products **acceptable** for  
Farmers and Earthpower diversion.

# Here is what you need to know:-

- General Waste:- Place only waste that can't be recycled inside Sulo Bin (e.g., Sticky tape, strapping tape, contaminated plastics, food scraps etc.).
- Separate other waste streams:- Organic, Cardboard, Polystyrene, Soft Plastics, Timber Pallets.
- Challenges:- Staff Education to source separate waste streams.
- Do not leave boxes and litter outside your premises.

# General Waste – Sulo Bins

Do **NOT** fill your bins with Organic waste or materials that can be recycled!

This add costs and missed opportunities to recycle!

# General Waste Disposal Rates

**\$448.00**

per tonne including GST

(Subject to annual increase)

# Pallet Recycling

- 1,400 tonnes of pallets have been recycled in the past 12 months.
- Pallets in good condition are re-used and damaged ones are shredded.
- SML diverts damaged pallets to Greenlife Resource Facility at Bringelly where they are shredded and used for a composting mix.
- Re-use of old pallets is also another option of diversion with many companies and Market Tenants collecting from Green Point.
- Several Transport Companies continue to collect plain pallets on a weekly basis.
- Tenants could assist by collecting pallets and re-using them.

# Polystyrene Recycling

## POLYSTYRENE MACHINE

- We continue to recycle an average of 3 tonnes of Polystyrene every month. This is equivalent to around 14,000 boxes every month.
- It is evident that there are more stakeholders collecting polystyrene boxes recently for re-use and recycling.

# NSW CONTAINER DEPOSIT SCHEME REVERSE VENDING MACHINE

- SML has installed a reverse vending machine on site to collect eligible beverage containers for recycling in exchange for a 10-cent refund. The reverse vending machine is located in the Plaza Car Park.
- Since March 2018, over **12.1 Million** containers were deposited in the machine. This initiative will further promote SML's Sustainability profile and help the environment to reduce containers ending up in landfill.
- Customers can choose three options to collect the proceeds from their returned beverages:- Paddy's Markets Voucher, their Paypal Account or a Charity.
- The NSW Government has introduced this scheme as a further initiative to help reduce the volume of litter and offer an incentive to consumers to recycle more.

# PLEASE FOLLOW THESE SIMPLE “DO’S” AND “DON’TS”

## DO’S

### SEPARATE ORGANIC WASTE

(No packaging mixed with the fruit and vegetable waste)

### SEPARATE ORGANIC WASTE SUITABLE FOR FARMERS’ STOCKFEED

### DELIVER TO GREEN POINT

### TAKE PLAIN PALLETS TO GREEN POINT
